Reference: Usage of Equal with Alcoa Wheels

Dear Mr. Fogal,

Alcoa neither endorses, nor prohibits, the usage of EQUAL with Alcoa wheels. The use of the current formulation of EQUAL will not harm the integrity of an Alcoa aluminum wheel. Usage of EQUAL, as it is formulated as of this date, will not void the warranty unless inspection of the wheel shows anomalies related to its use. Alcoa strongly urges customers to put the responsibility on International Marketing, Inc, as the manufacturer of EQUAL, to guarantee their chemical compatibility with Alcoa wheels and to support their performance claims. Alcoa recommends usage of a filtered valve core when using the EQUAL product.

Please feel free to contact me at (216) 641-6308 if you have any questions or comments.

Sincerely,

A handwritten signature in black ink that reads "Mike Yagley".

Mike Yagley
